To the Class of 2009:

Congratulations! The time has come and gone faster than anyone could have imagined. In just a short while, all that will be left is an immeasurable amount of memories and knowledge that will stay with us a lifetime. The Class of 2009 has been an inspirational experience for me. I have watched each and every one of you mature into beautiful, unique and amazing young men and women. In 2005, when you entered into the PHS family as freshmen, I entered PHS as a new teacher. Not only did each of you develop over the last four years but I have enhanced my level of personal growth as well. The preparation for, and the execution of this class were filled with many difficult times, challenges and fulfilling experiences. We have learned, laughed, cried and stumbled upon many obstacles together and through it all we have carried on.

As many of you know, I am passionate about this school, our mission, our students, and my role at PHS. I am passionate because I am a product of Plainfield High School and the community. I know that with hard work, perseverance and dedication each and every one of you have what it takes to become a Doctor, Lawyer, Teacher or even the next Barack Obama. I am certain that when you leave here and move into the next chapter in your life, whether you are moving on to college, the military, the workplace, or have other plans in mind, you will face many challenges along the way. Meeting these challenges successfully will require that you give your all to whatever you do.

Finally, I believe there is only one way to succeed in anything, and that is to give it everything. As you embark on the journey of life beyond high school, remember to believe in yourself, set your direction in life, be kind, know what is important, persevere, take responsibility, have dignity, act with courage, respect all-the same people you meet going up for they may be the same people you see going down, accept nothing less than your very best and last but not least always BELIEVE THAT THE SKY IS YOUR LIMIT.

To the Class of 2009:

Colin Powell, the first black U.S. Secretary of State, states that the chief condition on which, life, health and vigor depends on, is action. It is by action that an organism develops its faculties, increases its energy, and attains the fulfillment of its destiny. Because of your actions this part of your life journey ends and a more exciting one will begin. The dreams of one day graduating from Plainfield High School and becoming a productive citizen and contributing member of our society have arrived. What now? That is the question. However, the answer lies within you!

As a member of the class of 2009 you have an opportunity to impact the world in a major way. This impact will not be measured solely by your accomplishments, it will also be measured by the impact you have on others. If there is one piece of advice I can give to the class of 2009 it would be: Your successes in life will mean nothing unless you make an impact on the lives of others.

It has been my pleasure serving as principal during your senior year and my first year at PHS. As you reflect on your years at PHS remember that the building is not what defines Plainfield High School as a school it is the people within the walls. Twenty, thirty or even forty years from now when you pick up this yearbook I want you to remember the people who had an impact on your life, then I want you to think about the impact you have had on others.

I, too, am a proud graduate of Plainfield High School, class of 1987, and I hope I have made an impact on your life.

Sincerely,

Dr. Brian Bilal
